CONSENT TO TREAT A MINOR PATIENT
INFORMATION SHEET

Peninsula Community Health Services (PCHS) puts great care into the health and well-being of every patient. We appreciate that you trust us to provide healthcare services for your minor child.

Washington law requires the consent of a parent or guardian to provide medical, dental, or behavioral health services to a minor child (someone under the age of 18), with some exceptions. We realize there may be times when you cannot accompany your child to their appointment. Therefore, we have developed consent forms to allow your child to be seen:

- The **"Consent for a Non-Parent/Guardian to Make Healthcare Decisions for a Minor Patient"** form allows you to designate a trusted adult (18 years or older) to accompany your child to their appointment and give informed consent for medical, dental, and behavioral health services. The authorized person must provide picture identification when accompanying the child to their appointment. Each minor child in the family must have a separate form placed in their health record.

- The **"Consent for Healthcare Services for Minors"** form allows you to grant permission for your child to be seen at a PCHS clinic, including PCHS School-Based Health Clinics ("SBHC"). You may also provide consent verbally if a written consent has not been signed.

If you are not the child's parent, but you are an adult responsible for the health care of the child, you must complete the **"Kinship Caregiver Declaration,"** authorized under RCW 7.70.065. This declaration is valid for six months and allows you to make healthcare decisions for the child.

It is the responsibility of the parent or guardian to report any changes in the child's medical/dental history to the clinic. Unless any changes are noted by you or the authorized person at the time of the visit, the provider will assume that there have been no changes in the child's medical/dental history.

If for any reason you would like to cancel a prior consent form, please contact the clinic for further direction. If you would like to authorize a different person to give consent for your child, you must complete a new form prior to the child's next appointment.

Additional informed consent may be required to perform immunizations or surgical procedures.

We hope this will assist you in getting your minor child any needed medical, dental, or behavioral health services when you are unable to accompany your child to an appointment.

If you have any additional questions, please contact the clinic.

Healthcare services may include, but are not limited to: routine medical exams, sports physicals, well-child or well-teen care, evaluation and treatment of acute illness and injuries, immunizations, blood studies, and photographs for medical charts. PCHS encourages family involvement in the care provided to minor patients. However, if I am unable to be present, I authorize the above-named minor patient to receive healthcare services in my absence. Consent is also given for referral of care and, if necessary, emergency transportation to other healthcare providers or agencies deemed necessary by PCHS providers.
