

# Where to Find PCHS Medical Services

PCHS provides primary medical services for our patients in traditional clinic settings, school-based health centers, and a medical mobile clinic. PCHS provides these services to help our community get care regardless of their situation.

PCHS has medical clinics located throughout Kitsap, Mason, and Pierce Counties: one in Belfair, Shelton, Kingston, Port Orchard, Poulsbo, Silverdale, Key Peninsula, and three clinics in Bremerton!

PCHS' Mobile Medical Clinic travels throughout the Peninsula to provide primary medical care to patients with transportation or other access issues.

PCHS partners with five school districts at Esquire Hills Elementary, Fairview Middle School, Mountain View Middle School, North Mason School District Campus, Madrona Heights Elementary, Klahowya, Barker Creek Community School, Central Kitsap High School and Poulsbo Middle School to provide students and their families primary care services without having to leave school. School-based health centers provide a crucial link between health and education.

## Preventative Care

*Our team focuses on improving your quality of life by offering preventative care services to patients. Preventative care screening lowers your chances of developing chronic diseases*

*PCHS exemplifies a culture of community service*

- On-site clinical pharmacy services
- Referral to more specialized care

*We provide comprehensive medical services for both children and adults that emphasize a holistic, patient-centered approach to medical care.*

*Providing services to our communities with our patient-centered approach to care.*

## Extended Clinic Hours

Here at PCHS, we understand that receiving primary medical care cannot always fit into the traditional 9 AM – 5 PM schedule. That's why we offer extended hours at two of our clinics:

- Sixth Street Medical Clinic  
Monday – Friday: 4:00 PM – 7:30 PM
- Clare Avenue Medical Clinic  
Monday – Friday: 5:00 PM – 8:30 PM  
Saturday: 9:00 AM – 3:00 PM

Extended Hours Phone Lines: 360-475-3729

Both Extended Hours Clinics are available to all community members without making an appointment. Patients can receive care for minor illnesses during extended business and Saturday hours. In most cases, PCHS Extended Hours Clinic offer patients the same services as our clinics offer during normal business hours.

PCHS provides its medical services in conjunction with our pharmacy, dental, and behavioral health services. Our goal is to give our patients the services they need at our clinics. Our Medical Mobile Clinic offers primary medical services to patients in the community who cannot make it to our fixed site clinic locations.

*By having a collaborative team of providers that grow with your needs as a part of your health care team, we're able to consult with our fellow professionals on your medical needs as well as refer you to in-house specialists if needed.*

## Paying for Your Visit

PCHS accepts most medical insurance plans including Apple Health. All patients are eligible to apply for our sliding fee discount, which allows you to pay a reduced fee based on your income. PCHS services are available to patients without regard for ability to pay. This does not mean that services are free, but rather that a payment plan can be created, or other resources may be available to ensure cost is not a barrier to care.
