

What are Behavioral, Medical, and Dental Mobile Clinics?

Medical Mobile Clinic

Dental Mobile Clinic

Behavioral Health (BH) Mobile Clinic

PCHS opened mobile clinics to help all community members get access to medical, dental, and behavioral health services in an alternative setting. Our mobile units travel to various locations throughout the Peninsula:

Monday - Friday

Booking an Appointment

Appointments can be scheduled through our Patient Service Center at (360) 377-3776 or visit our website at www.pchsweb.org and use our website chat! Walk-ins are welcome; appointments are encouraged.

Have questions?

PCHS accepts most insurance plans including Apple Health. All patients are eligible to apply for our sliding fee discount, which allows you to pay a reduced fee based on your income. PCHS services are available to patients without regard for ability to pay. This does not mean that services are free, but rather than a payment plan can be created, or other resources may be available to ensure cost is not a barrier to care.

Extending access to our patients with transportation and other access issues

www.pchsweb.org

The Medical Mobile Clinic

The PCHS Medical Mobile Clinic puts our medical services on wheels and travels to a variety of locations to offer additional access for our medical patients.

Mobile Medical Services

- Screening, prevention, routine check-ups
- Acute and chronic illness treatment
- Simple procedures and injury care

Our mobile clinic has a wheelchair lift, the latest in medical equipment, and full access to your integrated health record.

We provide comprehensive, primary medical services for both children and adults that emphasize a holistic, patient-centered approach to medical care. With a focus on collaboration, our providers can work with you to address a wide range of health care services.

The Dental Mobile Clinic

The PCHS Dental Mobile Clinic travels to a variety of locations to offer additional access for our dental patients to our high-quality, dental healthcare services!

Mobile Dental Services

- Dental treatment services
- Dental cleanings
- Education and information
- Referrals for more specialized care

PCHS recognizes we have patients who cannot connect with dental services due to transportation, family/work obligations, or discomfort with traditional clinic locations.

Providing services to our communities with our patient-centered approach to care.

Community Partnerships

Quick Response Team (QRT)

The QRT program provides support to Mason County residents affected by substance use disorders. The team consists of Substance Use Disorder Professionals, Community Health Workers, and Peers committed to helping individuals improve their quality of life and reach their goals. We strive to break down barriers to service and instill hope for sustainable recovery. PCHS is in partnership with North Mason County Regional Fire Authority and other Public Health agents to connect individuals and families to resources with a focus on education, counseling, care-coordination, and overdose protection.

Bremerton Ambulatory Team (BAT)

The Bremerton Ambulatory Team seeks to help those who need more support. This multi-disciplinary team consists of a Community Health Worker, Mental Health Counselor, Substance Use Disorder Professional, and a Primary Care Provider. In collaboration with the Bremerton Fire Department and other community partners, BAT offers proactive services tailored to one's individual needs. They work together with **you** to optimize your mental health and physical health. They can address acute needs and develop a plan for more sustainable long-term solutions. BAT can help bridge you to that comprehensive care from the comfort of your home.

The Behavioral Health Mobile Clinic

The PCHS Behavioral Health (BH) Mobile Clinic is a secure, private space with the same counseling services, care coordination, substance use treatment services, health education and information available in our fixed site clinic locations.

Mobile BH Services

- Community resource information
- Counseling
- Crisis intervention
- Coping skills/stress management
- Substance abuse support
- Basic care coordination

The BH mobile team is comprised of a care coordinator, a licensed mental health counselor (LMHC), and a substance use disorder professional (SUDP).

The BH mobile Clinic travels to a variety of locations to offer additional access for our medical patients to our high-quality, integrated behavioral healthcare services. We recognize we have patients who cannot connect with behavioral health services due to transportation, family/work obligations, or discomfort with traditional clinic locations.
