Where To Find PCHS Medical Services

PCHS provides primary medical services for our patients in traditional clinic settings, school-based health centers, and a medical mobile clinic. PCHS provides these services to help our community get care regardless of their situation.

PCHS has medical clinics located throughout Kitsap and Mason Counties: one in Belfair, one in Shelton, three in Bremerton, one in Kingston, one in Port Orchard, one in Poulsbo, and one in Silverdale.

PCHS’ Mobile Medical Clinic travels throughout the Peninsula to provide primary medical care to patients with transportation or other access issues.

PCHS partners with three school districts at Esquire Hills Elementary, Fairview Middle School, Mountain View Middle School, and on the North Mason School District campus to provide students and their families primary care services without having to leave school. School-based health centers provide a crucial link between health and education.

Primary medical care services are available at the following locations:

**Almira**
5455 Almira Drive NE,
Bremerton, WA 98311

**Franklin**
627 West Franklin Street,

**Wheaton Way**
2508 Wheaton Way,
Bremerton, WA 98310

Preventative Care

Our team focuses on improving your quality of life by offering preventative care services to patients. Preventative care screening can lower your chances of developing chronic diseases.
What to Expect with PCHS Primary Medical Services

PCHS offers the following services at our primary medical clinics:
- 24-hour on call triage / advice line
- Immunizations including seasonal flu shots
- Newborn and well child care
- Routine physicals & age-appropriate screening
- Cancer screening with special focus on breast cervical, and colon health
- Family planning & pregnancy testing
- Acute illness & injury treatment
- Minor surgeries
- Anticoagulation services
- Chemical dependency services & care coordination
- Dietician & nutrition services
- Health education & information
- Insurance navigation services
- On-site clinical pharmacy services
- Referral to more specialized care including the PCHS OB/GYN program

Providing services to our communities with our patient-centered approach to care.

Extended Hours Clinics

Here at PCHS, we understand that receiving primary medical care cannot always fit into the traditional 9 AM - 5 PM schedule. That’s why we offer extended hours at two of our clinics:

- **Sixth Street Medical Clinic**
  Monday - Friday: 4:00 PM - 7:30 PM

- **Wheaton Way Medical Clinic**
  Monday - Friday: 5:00 PM - 8:30 PM
  Saturday: 9:00 AM - 3:00 PM

Extended Hours phone line: 360-475-3729

Both Extended Hours Clinics are available to all community members without making an appointment. Patients can receive care for minor illnesses during extended business and Saturday hours. In most cases, PCHS Extended Hours Clinics offer patients the same services as our clinics offer during normal business hours.

Paying for Your Visit

PCHS accepts most medical insurance plans including Apple Health. All patients are eligible to apply for our sliding fee discount, which allows you to pay a reduced fee based on your income. PCHS services are available to patients without regard for ability to pay. This does not mean that services are free, but rather that a payment plan can be created or other resources may be available to ensure cost is not a barrier to care.
